

To Let

Clapham
Junction

Kiosk 2

Overview

London's most sociable suburb.

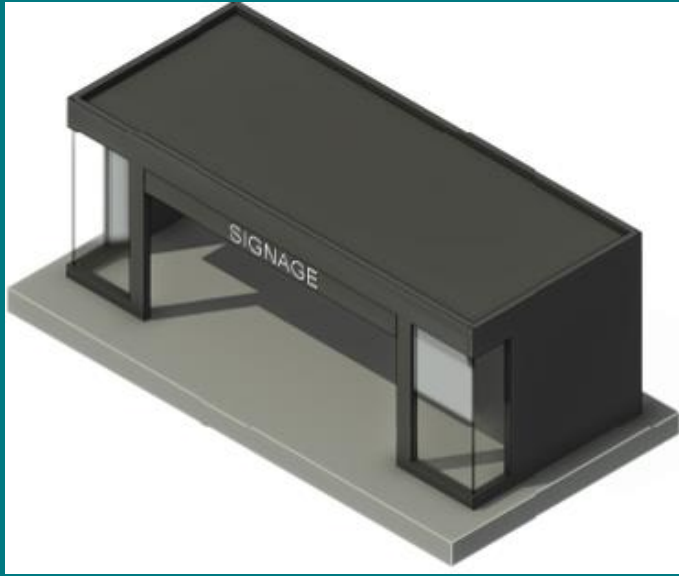

Recent regeneration has transformed bustling Clapham Junction into a treasure trove of foodie hotspots, eclectic boutiques and fashionable bars.

Situated on the overbridge, a new food and beverage kiosks ideal for a Bread brand is now available to lease along this popular passenger thoroughfare, which runs above platforms 11-17.

Clapham Junction is Britain's busiest interchanging train station, with more than 2,000 trains passing through each day.

Unit design

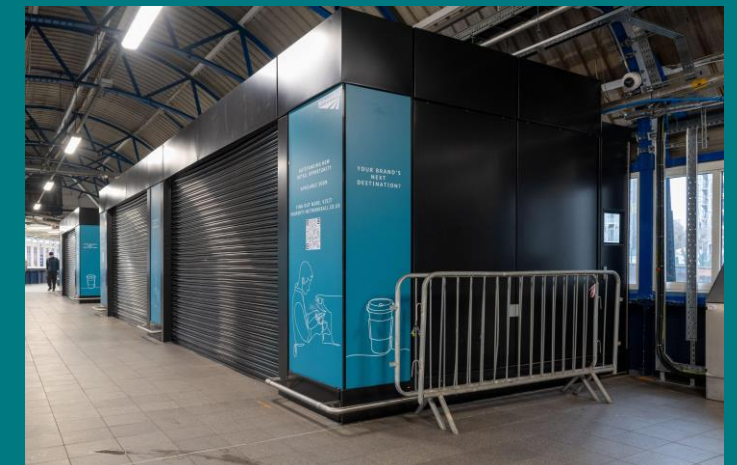

Kiosks have lightweight, modular frames, clad with colour-coated metal panels.

The modern, black / graphite finish is designed to work with tenants' own branding.

The glazed frontage provides excellent visibility of the retail offer inside, while deep-framed base and end panels offer good impact protection.

Tenants can apply their own illuminated signage to a stainless-steel tube located behind the glass.

Located opposite platforms 15 & 16, this kiosk could be a convenient place to grab a treat for your journey.
